4. **Financial Stressors**

Stress Management

Stress management is the ability or technique to **identify, control and reduce stress** by making positive changes in your **lifestyle, thoughts and emotions**. It helps a person to **relax the mind and body, stay calm and handle stressful situations effectively**.

Stress Management Techniques

1. **Time Management**
Plan your daily work, make a timetable, and complete tasks on time to avoid pressure.
2. **Physical Exercise**
Regular exercise like walking, running, or playing sports helps release stress and improves mood.

3. **Meditation**
Sitting quietly and focusing on your breath helps calm the mind and reduce anxiety.
4. **Yoga**
Yoga combines physical postures and breathing exercises that improve mental and physical balance.
5. **Healthy Diet**
Eating balanced and nutritious food keeps the body and mind active and strong.
6. **Positivity**
Thinking positively helps you handle problems better and reduces negative stress.
7. **Good Sleep**
Proper sleep (7–8 hours) refreshes the brain and improves concentration and emotional control.

How Students Can Manage Stress

Students can manage stress by following simple and healthy habits in daily life:
